Sr Louis, March 8 -A long letter is published this morning from Gen. Pope in reply to Gov. The general gives a candid review of the condition of affairs as he finds them and sees but little difficulty in the way of the re-establishment of civil law, and urgently recommends the people throughout the state to unite in active, vigorous measures to bring about that end and rid themselves of the present provost marshal system which, if continued long can only result in great injury to the material interest of the state and a tacit abrogation of the harmless, contains no caustic, improves the fibres, pro-

Females.

The beauty and extreme delicacy of the female organization, to say nothing of its physiological characteris-tics, are sufficient indications that it is subject to forms of disease and modifications peculiar to itself. The physician of the present day does not encounter any more forms of uterine diseases than did the physician of fifty years ago; but owing to the present social condition of woman, her diseases are increased to frequency, and to the truth of this assertion the melancholy deaths by consumption bear ample witness.

At the American Dispensary we treat by a new method, and with the happiest results, Prolapsus Uterl, (falling of the womb,) Eruptions of the Skin, Chlorosis, or Green Sickness—characterized by yellowish, dirty green pallor of the surface; Emansio Messium, or absent Menstruation; Amenorrhea, or Retention of the Menses; Dysmenorrhea, a painful and diffi-cult flow of the Menses; Menorrhagia, or profuse Menstruction; Leuchorrhea, or excessive and altered secretion of the mucus-generally white, or nearly coloress Coffee, Sugar, Reader, I have given you a class of diseases that are met with in Females of all ages, whether married or un-
